**PATENT APPLICATION**

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

X.D. Hu et al.

Group Art Unit: 1793

Application No.: 09/851,177

Examiner: Cam Nguyen

Filed: May 8, 2001

Docket No.: ZL494/01001

For: HIGH SURFACE AREA, SMALL CRYSTALLITE SIZE FOR FISCHER-TROPSCH  
SYNTHESIS

**PETITION TO WITHDRAW PATENT APPLICATION FROM ISSUANCE AFTER  
PAYMENT OF THE ISSUE FEE UNDER 37 CFR 1.313 (c)(2)**

Deputy Commissioner for Patent Examination Policy  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In accordance with 37 CFR § 1.313 (c)(2), Applicant respectfully requests that the above-identified patent application be withdrawn from issuance. This application is scheduled to be issued on June 24, 2008 according to the Issue Notification mailed on June 4, 2008.

This Petition is being filed concurrently with a Request for Continued Examination and an Information Disclosure Statement pursuant to 37 CFR § 1.114. This Petition is also accompanied by the Petition Fee as required under 37 CFR 1.17(h).

**Statement of the Facts**

The above-identified patent application is assigned to Süd-Chemie Inc., Louisville, Kentucky, as evidenced by the Assignment recorded at rcel/frame 011790/0332. Süd-Chemie recently decided to hire a registered patent attorney to serve as a full-time, in-house patent counsel for the company. Prior to this decision, Süd-Chemie's patent prosecution was being handled by several external patent attorneys.

As applicant's representative, effective June 2, 2008, I began reviewing the files to determine the status of Süd-Chemie Inc.'s pending patent applications. After review of the file history available in public PAIR for the above-identified application and the International

Application No. 09/851,177

patent applications that claim priority to this US application, I discovered that a Supplementary European Search Report issued January 16, 2006, and the references it disclosed, had not been submitted in this application. Several of the references cited in the Supplementary European Search Report were identified as "X" references.

Because it is the normal practice of Süd-Chemie to file all references cited in a communication from a foreign patent office that have not been previously cited to the USPTO, it was decided to file this petition with a Request for Continued Examination so that an Information Disclosure Statement could be filed herewith to have these references considered.

In view of the short time in which this Petition has been filed after discovering the omission, Applicant respectfully requests that this Petition be granted and that Patent Application 09/851,177 be withdrawn from issuance and prosecution reopened in accordance with the Request for Continued Examination filed herewith.

Moreover, in view of the short time before Patent Application 09/851,177 issues on June 24, 2008, this Petition is being submitted to the Office of Petitions via facsimile transmission.

Respectfully submitted,

Lynn E. Schwenning
